If you suffer from Lost Manhood (no matter how caused), Spermatorrhoea, Varicoccie. Weakness of any nature in the Sexual Organs or Nerves, or if the parts are undeveloped or have shrunken or wasted away, "Caithos" will restore you. "Caithos" is a French discovery by Prof. Jules Laborde, famed in Paris as France's foremost specialist. "Caithos" is the only remedy recognized by the medical profession as a cure for weak men. It has the indorsement of the German and French governments, and is cently introduced in this country by the Von Mohi Co. of Cincinnuti, Ohio, has at-tracted the attention of the entire medi-cal profession because of the marvelous man and French governments, and is largely used in the standing armies of those countries. suffering from lost vitality. Baltimore Oct &-The board of direc tors of the Maryland State Bureau of Immigration have instructed Mr. Cornelius W. Van der Hoogt, secreary of the board to go to Holland for the purpose of ob talning a number of immigrants with whom to settle a colony in this State. Mr. Van der Hoogt has made his arrange ments to leave for Holland on November

24, and will sail from New York. In speaking of his proposed trip Mr. Van der Hoogt said: "My purpose is to deliver a series of lectures, taking as my basis of talk the advantages, resources and adaptability of Maryland for Holland immigration. I propose to tell my people exactly of the conditions of the soil climate and hospitallty of Maryland. I shall arrange to deliver these lectures principally in the provinces where agriculture is the chief pursuit, as farmers

are what we need in Maryland. "It is a well-known fact that in Holland farmers are too plentiful. I have been in communication for some time with some of the leading citizens in the various provinces in my country, and I terest a sufficient number to form a flourishing colony in this State. The proposicontemplation by the State bureau for some months, and the board of directors, the superintendent and myself have been working arduously in order that we might have everything in readiness for the suc-

cessful carrying out of our plans.
"In order to establish a colony which will prove successful it is first necessary to secure a suitable tract of land up

Hollander accepts the theory that it is better to well cultivate a small tract than to attempt to cultivate a large one. The people in Holland are noted for their butter-making, and this will be one of the principal industries established in the

proposed colony.
"I shall also visit the province of Zeeland, where the oyster culture is largely in vogue, and where many practical oys ter planters and fishermen can be found ter planters and fishermen can be found. In this colony I will tell the people of the unlimited supply and growth of systers which now flourish in the waters of this State, and no doubt I will be able to secure some colonists from this section, who will be only too glad of the opportunity to embrace the advantages which this State can offer.

"The first thing which we propose to do after securing our become is to sub-division."

after securing our people is to sub-divide the tract of land where we propose to settle them into farms, ranging from fifty to eighty acres, as this is the size of a farm that is usually preferred by the agriculturists. When this is done the next step will be to erect a house of worship, as the people of Holland, as a rule, are religious and greatly interest

ed in church work. The services of a pastor has been promised us by the Re-formed Church board of Chicago. "Next to the church, a school-house is the building of second importance, because our people believe in education. Next to the church and school-house, comes the blacksmith shop for the col-ony. This is one of the most essential necessities. All of these have been provided for, as well as house accommodations for those who are to come. Arrangements have already been put on foot for postal facilities and quiek transportation for the products of the farm. The new colony will be largely patterned. after the Holland colony which is now

I shall take with me letters of in-troduction to those in highest authority as well as the report which has been to cently submitted to the State Bureau o Immigration by three expert farmers from the Holiand colony in the West, These gentlemen are all well known in our native country, and the report will carry great weight. They are C. H. Jo-dersma, L. H. Jaarsma and H. W. Sikke-may. Special Course Treatment Prepared by the Famous

SENT FREE TO ALL SUFFERERS The Physicians' Institute, of Chicago, is ; warmth is felt throughout the whole

successful treatment of certain widespread ner-yous diseases. These diseases have baffled the treatment of the most skillful students who spend a lifetime in indi-vidual work. The re-sults obtained by this company of scientists in the cure of lost vitality in all of its forms have attracted the enthusiastic notice of the entire medical world.

The institute has been given authority by the Star of Univ.

the State of Hilnes to make widespread the knowledge of these discoveries. These physicians agree that while symptoms differ in a slight de-gree in patients of different temperaments, that conditions as they find them are the rame, no matter from what cause they arise, whether the beginning of the trouble has cause they arise, whether the beginning of the trouble has been youthful folly, overwork, or business care and worry. The Physicians' Institute has prepared a special course treatment which is the most complete and only positive cure for lost vitality, speciment was a verice or less than the complete and only positive cure for lost vitality speciment was a verice or less than the complete and only positive cure for lost vitality speciment was a verice of the control of the control

If taken as directed it will not only replenish the nervous forces, but will restore the wasted organs affected by such troubles. The Physicians' institute desires to place this treatment in the headires to place this treatment in the hands sires to place this treatment in the hands of every sufferer in the land, no matter how himble in circumstances or how hopeless his case has seemed. To this end every reader of this paper who suffers from nervous debility who will write at once will receive this special course treatment free of any charge whatever by return mail. The treatment is sent in a plain wrapper, sealed, without marks of any kind, and the person receiving it need have no fear of publicity.
